

McBerns Odour Filter.

Suits 100mm or 150mm Vents from Grease traps, Septics, Domestic Treatment Systems and Sewers.

This Filter has a replaceable media cartridge section.
When filter ceases to be effective a replacement media cartridge is available.

Installation Instructions:

Please read Safety Advice/First Aid below before proceeding with installation:

Install as follows:

1. Install as indicated in diagram.
2. Unscrew cap and insert media cartridge into housing & re-cap.
3. Slide Filter body onto vent pipe.
We recommend that filter body be secured to vent pipe with screws or glue.

Maintenance we suggest:

1. Monthly inspection to check physical condition of filter and integrity of the installation.
2. Monthly check for any odour emission. When unacceptable emission is detected, filter cartridges should be replaced.
3. Refer to our installation instructions above for cartridge replacement procedure.

Safety Advice:

Keep out of reach of children

Ensure adequate ventilation when removing filter from pack and installing.

Do not puncture the container or otherwise interfere with the product as this will reduce its effectiveness or produce harmful vapours.

First Aid Information

Poison Information Centre in each State capital city can provide additional assistance for Scheduled Poisons: Phone (Australia 13 1126)

Ingestion: Rinse mouth with water. Do **NOT** induce vomiting. Seek medical assistance.

Eyes & Skin: Be careful to avoid contact with contents, or fumes from the filter as they may cause irritation to eyes, skin or breathing passages. If contact occurs wash affected area with plenty of water.

Inhalation: Remove victim from exposure. Remove contaminated clothing and loosen remaining clothing. Allow patient to assume most comfortable position and keep warm. Keep at rest until fully recovered.

Seek medical advice if symptoms persist.
